

Ref 07/10 Information Systems Developer

£23,755 - £26,348

Working within the Information Systems Department you will develop and maintain IT based systems to support College curriculum and corporate business areas. You will assist in the provision of end user support through the implementation and subsequent use of applications and information systems.

As a minimum you will be educated to HND level or equivalent in an IT or related subject. You will have previous experience of software development and be familiar with most of the following systems and tools: Microsoft Visual Studio particularly ASP.NET, C#.NET and VB.NET, Database Management Systems (ORACLE/MS SQL Server/my-sql), Websites IIS/Apache (both Windows and Linux based), Web applications (ASP.NET/ASP/PHP/PERL), Reporting tools such as Crystal Reports. Previous experience of using Cold Fusion and/or Sharepoint would be desirable.

You will be familiar with the use of Project Management Tools and with working from formal systems development functional specifications. You will have experience of working on a variety of projects to set deadlines and must be able to work independently and as part of a team.

If appointed candidates must undergo an Enhanced Disclosure check and must be able to provide proof of the right to work in the United Kingdom.
